OUR COMPANY

Our priority is the complete satisfaction of our customers! From commercial hi-rise projects and condominium and single family community repaints, our goal has-always been to provide professional results at reasonable prices. We never compromise on materials or processes because in the end its our customers' satisfaction that has sustained us for over a decade.

As South Florida's buildings have aged our scope and skill-set has changed as well. In addition to painting our sister company **All Pro Construction** is a licensed general contractor. As such, we can

handle repairs and restorations that other painting contractors cannot. On some projects, we work in conjunction with structural engineers to help you achieve the results you need - projects completed on time and on budget.

Friendly service is important as well. Our crews are multi-lingual and accustomed to working in the condominium community environment and our Supervisors work hard to keep property managers, board members and owners well informed as the project progresses. As always, our goal is complete customer satisfaction.

Fully licensed and insured, we have been _____
_____ serving South Florida since 2005.
