

ZOJACKS

PROACTIVE WATER & FREEZE DAMAGE PREVENTION

What We Do

ZoJacks helps protect properties from costly water damage. Through smart sensor technology, real-time alerts, and automatic shut-off systems, ZoJacks gives property owners and managers peace of mind—whether they're on-site or away.

Benefits

- Water to the home automatically turns off when risk is identified
- Up to 10% off insurance premiums and potential deductible reductions
- Control the entire system from an app, turn your water on or off from anywhere.

What Makes ZoJacks Different?

Detect leaks from sinks, bathrooms, hot water tanks, dishwashers, and laundry appliances—anywhere water-related issues are most likely to start.

Stop water damage before it happens. Our system is professionally installed & maintained— we handle setup, ongoing support, and one-on-one resident training.

Scan the QR code to watch our "**ZoJacks in Condos**" video to see how our system works in high rise condominiums.
