

Serving the Condominium and Apartment Communities Since 1974

“Working Every Day To Deliver Our Promise”

Companies are defined by their differences, not their similarities. While many organizations search for an identity within the laundry industry, Aaxon Laundry Systems has created one of its own.

Our unique approach to customer satisfaction allows us to cultivate long lasting, mutually beneficial relationships with our customers, while providing laundry solutions that lead the industry.

*‘Prompt,
professional
service is the
cornerstone of
our business’*

Our mission is to provide premium service, ethical business practices, profitability and high quality, commercial laundry equipment to ensure customer satisfaction. This successful practice has resulted in our customers getting the MOST out of their laundry rooms.
