

WATER SECURITY SYSTEM

Flood Prevention
Water Sub Metering
Leak Detection System

www.watersecuritysystem.com

1

Research and development of a Leak Detecting System.

2007

The first Leak Detection System was completely manufactured and tested.

2

2008

CE

3

The first Leak Detection System was approved from a third party laboratory.

4

The first Leak Detection System was delivered and installed.

2010

2011

Start the R&D for the new LDS with touch screen and enhanced features. The system won the GAIA awards in Dubai.

5

6

A new system comply with world wide approvals.

2013

2014

A new system with touch screen color display and new remote software is presented.

7

8

Delivery of the ultimate Water Security System.

2016

2018

Comprehensive FM's Water SaaS sub metering and billing capabilities. Free lifetime software updates. Complete turnkey solution with installation, setup, service and maintenance included. Provide state of the art customer service before, during and after the system installation.

9

Products

*All products come with three(3) sensors.

Flow Based

Water shut off – Single point
MSRP starts at \$799 USD

End connections FIP x FIP, 24V AC/DC

Water Heater

This is a typical point of use shut off application where the Water Security System is installed on the main water line coming into the water heater. In case any leak is detected from the water sensor, this will shut off the water and the heater.

Dashboard

This user friendly interface is the core of the WSS, will let you control your system anytime from anywhere. Is available for use on any Windows, Apple or Android device.

Water Security System

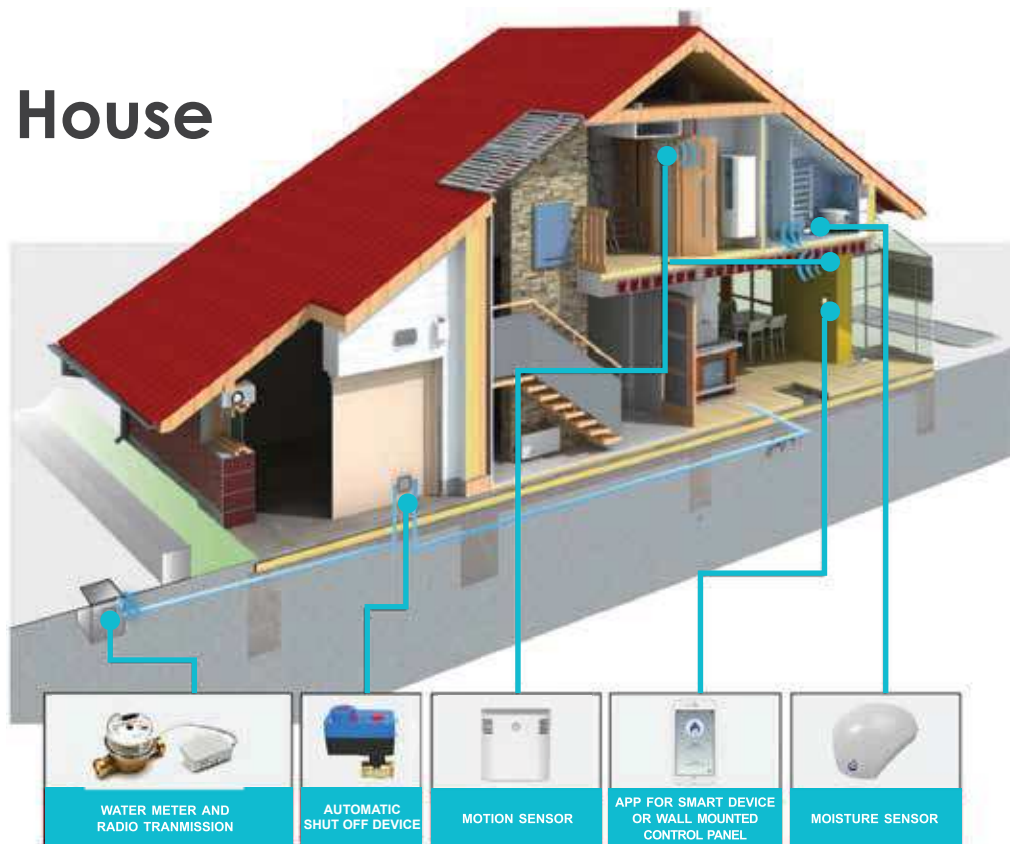

With Enolgas water security system, your home is protected from water damage. When a leak is detected with the WSS, automatically shuts off the main water supply, protecting your home from expensive water damage.

The WSS not only protect you from leaks, but provides the user with entire home water consumption on the dashboard of a device.

The system has active important benefits:

- Single point active whole house leak detection system with flow monitoring
- Send text and/or e-mail notification when leak is detected
- No maintenance is required once the system is completely installed
- Dripping precision
- Monitors water flow 24/7
- Can be integrated with wireless moisture sensors for appliances
- Reduce insurance cost, check with your insurance broker
- With a smart phone, tablet or computer you can remotely shut off, monitor leaks and view water usage

Single House

Multi Family

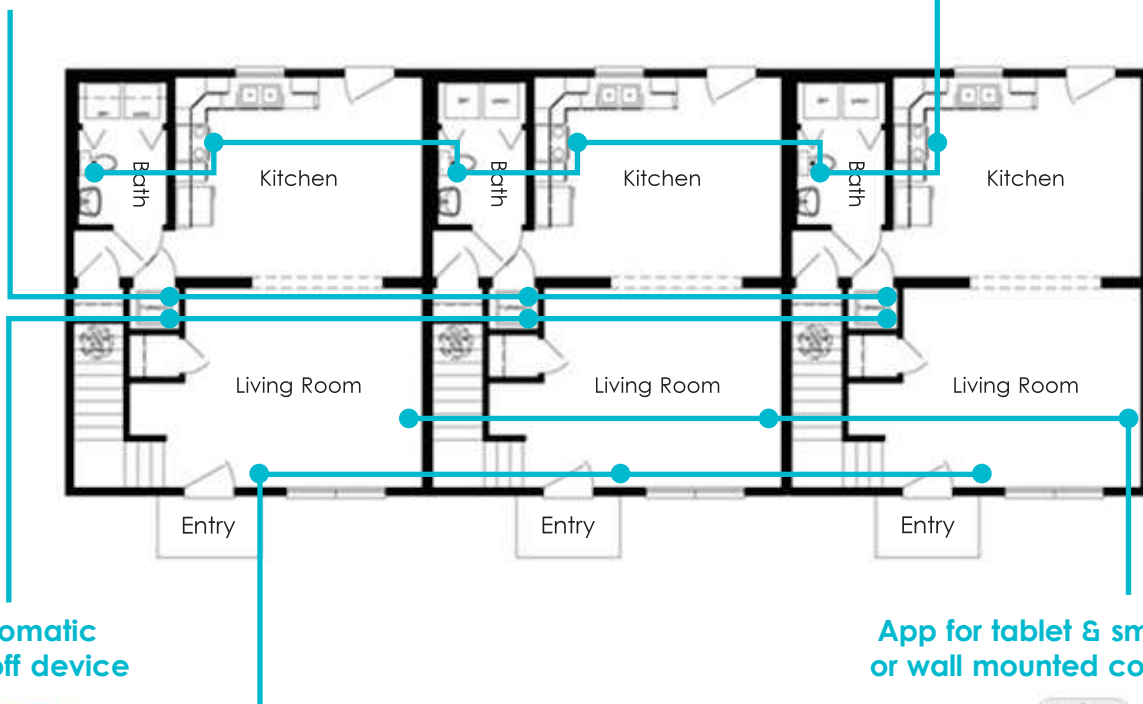

Our Water Security System can save your home or apartment from catastrophic water damage. Do not wait until it is too late, an unattended home or apartment is vulnerable to a leak from a water heater, water filtration system, ice maker, washing machine hose or bathroom fixture – turning into a full-blown disaster as water flows unabated in your home for hours or even days! Our WSS will provide dependable flood control and peace of mind. Protect your home from unnecessary water damage by installing our WSS. We have a complete line of automatic water shut off systems to meet your property requirements.
