FIRE ALARM SYSTEMS

Florida State Security can design and engineer a cost effective fire alarm system for your new or existing facility. We provide the design, installation, service, and maintenance to ensure code compliance and that proper functionality is met at all times. Our trusted brands from UTC Fire & Security have unique features that offer an affordable solution to a necessary cost.

CARD ACCESS CONTROL

Professional Card Access Control Systems yield ultimate control of area access.

- Keep unwanted visitors off your property
- Schedules to easily control where & when access is granted
- Deactivate keys when lost or stolen

CCTV SURVEILLANCE SYSTEMS

Prevent vandalism, theft, lawsuits, and even illegal dumping on your property.

Incorporating the latest and up-to-date technologies including IP and HD-analog cameras, our systems are made to specifically meet customer requirements and include features such as remote viewing from your desktop or mobile device.

BDA SYSTEMS

Florida Fire Prevention code requires all new buildings and existing highrise to have a Radio Frequency Signal Strength Survey and a BDA System installed if needed.

FSS has GROL FCC licensed technicians who are fully certified to properly survey, build, design, and install BDA systems in any newly constructed or existing building.

FLOOD DETECTION SYSTEMS

Prevent expensive flood and water damage with our Flood Detection Systems.

Designed to be a powerful tool to prevent disasters and save customers money in insurance costs. Great for use in condominium buildings!

WIRELESS ELEVATOR EMERGENCY PHONE LINES AND MONITORING

Eliminate Phone Lines!!!

We provide full 24-hour Central Station Monitor Services of emergency elevator phones. If you're currently paying for traditional phone lines, you're paying too much. Our cellular communicators work with all elevators and provide a phone line for a fraction of the cost.
