GAMA SONIC®
SOLAR LIGHTING

Leading Manufacturer of Solar Powered Lights Since 2001

Gama Sonic's commercial grade solar lighting provides a superior experience. Enjoy beautifully designed commercial grade solar lighting featuring our integrated solar lighting technology which provides bright, durable, maintenance-free, and cost-effective lighting. No electrical wiring, digging, trenching, or running gas lines are required which will save you both time and money.

Gama Sonic's commercial grade solar lights create an alternative to traditional pedestrian lighting in parks, communities, towns, and cities. One of the biggest challenges communities face today is keeping costs down. Our solar powered technology harnesses energy from the sun, reducing your costs while providing the security lighting needed in your community.

Gama Sonic's commercial grade solar lights are installed in parks, communities, main streets, municipalities, HOAs, and residences all over the country.

Gama Sonic continues to be the leading manufacturer of commercial and residential outdoor solar-powered pedestrian lighting, and with more than 20 utility and design patents, our innovations in design and technology continue to allow us to set the bar in the solar lighting market.

Cost Efficient

5 Year Warranty

No Wiring

Eco Friendly

" Commercial property owners who have switched to the Imperial II like myself have found these lights are more cost effective, easy to install and create a great atmosphere. "

- Dennis Wagoner (owner of 9 Mobile Home Parks)

" We live in Union County NC, an area that sustained significant damage during Hurricane Florence and Michael with massive flooding and winds. During the third night of the Florence hurricane, the power went out and our rural area was pitch black except for our Gama Sonic Imperial II Solar Lights which unlike other lights on our property held up in the adverse conditions. The views of the lights down our long driveway served as a beacon of hope throughout the storm, and we will be forever grateful. "

- Mike and Cindy Kopp (Champagne Manor in Moroe, NC)

Commercial Grade Solar LED Lamps & Lights

Centennial

Commercial Grade Solar Post Light • 900 Lumens

Imperial III

Commercial Grade Solar post Light • 300 Lumens per head

Solar Flood

Solar flood light
• 250 Lumens

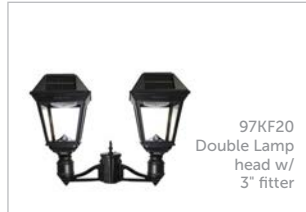

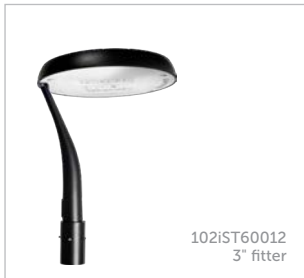

Everest II

Commercial Grade Solar Light • 500 Lumens per head

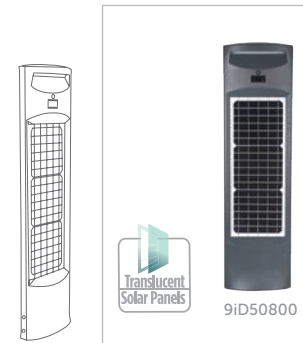

Modern

Commercial Grade Solar Post Light • 900 Lumens

Bollard
