California[®] PAINTS

Top Rated interior and exterior architectural paint.

The highest quality interior paint, exterior paint and architectural coatings, with a distinguished color palette offering over 2,000 colors including the Historic Colors of America collection.

Scuffmaster[®] Pretty. Tough. Paint.™

Extra-tough pearl, metallic, and textured paints for active spaces where other paints can't hold up.

Today's buildings require coatings with great looks, extreme durability and minimal environmental impact. Scuffmaster coatings—from our pearls, metallics and textured paints to our hard working eggshell—were created to meet and exceed those demands.

zolatone[®] INTERIOR COATINGS

Tactile architectural finishes with unrivaled durability favored by interior designers and architects alike.

Do you wish your favorite colors had a little more pop? Zolatone coatings let you add a light catching, textural quality to your interior projects. And thanks to Zolatone's super tough 100% acrylic formulas, you can rest assured that the great looks you create with Zolatone today will look that way for years to come.

Industrial strength coating for hard to paint areas like metal, masonry, floors, stairs and railings.

For over 100 years, the FixALL brand has provided high quality paint, coatings, primers and enamels for a variety of surfaces and applications. FixALL's top performing products in multiple categories can be combined in various ways to create the perfect, flexible solution.

Storm System has a stain or finish for nearly every condition and exterior wood application.

Storm's best-in-class exterior finishes that make choosing the right product easier than ever before. Organized in 5 easy-to-understand exterior finish categories, the Storm System takes all the guesswork out of the decision-making process. Create the look you want that protects during any weather.

CLEAR|ERASE DRY ERASE CLEAR COAT

Turn paintable surfaces into dry erase areas perfect for collaborating, teaching and much more.

Perfect for meetings, brainstorming sessions, doodles, reminders, to-do lists, concepts, and so much more, our dry erase products are among the best-selling, most specified, and most preferred dry erase coatings on the market today.

Fiberlock

TECHNOLOGIES

High performance coatings for remediation, abatement and disaster restoration for over 35 years.

One of the most respected names in the abatement and remediation industry. From asbestos, lead, mold, fire/disaster restoration to dust control, Fiberlock has the expertise, insight and product to help you get the job done quickly, effectively and economically.

POLYSET®

Versatile roofing adhesives designed for securing a wide variety of residential and commercial roofing products.

Pressurized foam adhesives specifically designed for adhering and securing roof tile, insulation and fleece back membranes across a wide range of substrates in both new and reroof applications. Polyset products use innovative polyurethane foam adhesive technology, providing a better finished project.

HandiFoam®

Advanced polyurethane foam sealants, adhesives and insulation designed for residential & commercial use.

Handi-Foam low pressure one- and two-component polyurethane foam sealants, adhesives, pour-in-place and spray foams offer enhanced results, and dependability while providing energy savings, structural stability, and healthier environments.

STORM SYSTEM®

Best-in-class mold & mildew solutions designed for homeowners needing to kill mold for good.

Best-in-class formulations that allow homeowners and do-it-yourselfers to treat dangerous mold and mildew like the professionals. Organized in 3 easy to use formulas, Storm System's specialty line of products can clean, kill and control mold & mildew for long-lasting remediation.

ROOFSLOPE®

A patented way to address ponding water and achieve proper drainage.

Sloping compound that provides a quick and easy way to fill in low spots on flat roofs and achieve positive slope to aid in proper drainage. The RoofSlope® compound is excellent for new construction as well as retrofit work, minimizing costs associated with fixing slope-to-drain issues.

PLI DEK® WATERPROOFING SOLUTIONS

Waterproof deck coatings, fluid applied waterproofing membranes, epoxy flooring and concrete coatings.

A wide variety of specialty coating solutions for the building industry, including waterproof deck coatings, fluid applied waterproofing membranes, epoxy flooring and concrete coatings.

ROCK TRED

POLYMER COATING SOLUTIONS

High-performance flooring solutions for extreme temps, soft floor options for pools and more.

Rock-Tred has been innovating solutions for concrete resurfacing since 1939, and is today a leader in polyaspartic, epoxy, and acrylic polymer technology. From specialized solutions perfect for research spaces and hospitals, to restaurants, schools, sports facilities, industrial facilities, garages and parking decks.

Super-Krete®

Products

The ideal source for decorative yet tough-as-nails floor coatings.

Super-Krete® Products have been globally recognized for decades. Super-Krete offers decorative concrete overlays, decorative color chip flooring, metallic coatings, concrete stains, dyes, architectural sealers, moisture remediation products and an array of epoxy, polyurethane and acrylic coatings.

Specialized flooring products and concrete coatings for contractors, architects and end users.

Using advanced polymer chemistry, APF formulates a wide variety of high-quality products based on epoxy, polyurethane and acrylic technology. APF continually invests in the research and development necessary to bring the most innovative products and systems to market.

DRY•TREAT

PRESERVING BEAUTIFUL SURFACES

The most advanced line of sealers and cleaners for natural and manufactured stone surfaces.

Whether it is protection for the pavers of a critical circulation pathway, or the preservation of a landmark granite spire, only Dry-Treat's impregnating technology sealers are truly permanent repellent against weather, water, and unwanted discoloration.

DecoTurf®

Since 1978, DecoTurf tennis surfaces have been selected for the US Open and major venues around the world.

From multi-layer tennis court surfaces to basketball court surfaces to pickleball courts to acrylic surfaces for roller hockey, DecoTurf can accommodate all types of play at competitive pricing. If you want to play like a pro, make sure you're playing on a DecoTurf surface.

Plexipave®

TENNIS SURFACE SYSTEMS

The official surface of the Australian Open, Plexipave is the world's leading brand of acrylic sports surfacing systems.

Plexipave systems are 100% acrylic all-weather surfaces suitable for indoor or outdoor application. They are ideal for tennis courts, athletic tracks, netball courts and other multipurpose sports surfaces. Perfect for sport and walkway application with minimal upkeep costs.

PREMIER

SPORTS COATINGS

Performance coatings for residential courts, municipalities and more.

Premier Sports Coatings have been used at some of the world's most prestigious events, including Fed Cup, Davis Cup and the Mubadala World Tennis Championships. Our innovative fibers and 100% acrylic binders provide trouble-free playing that consistently outlasts competing products.

Plexitrac creates the ideal balance between dynamic response and safety cushioning.

Plexitrac is an advanced track system designed to minimize fatigue and stress while reducing the probability of injuries. Plexitrac is the smart choice for retexturing, rejuvenating and enhancing existing asphalt, SBR/EPDM latex, urethane, and rubber-asphalt running tracks.

Rebound Ace Sports acrylic surface systems provide, the highest level of shock & impact absorption.

Rebound Ace Sports is a pioneer of innovative sports surfaces systems which reduce leg, ligament and lower back strains and injuries, while enhancing performance levels through a patented multi-layered cushion design. Rebound Ace Sports continues to lead the world in developing technology for court related sports.

The leader in indoor sport flooring systems, SignaSports provides beautiful, versatile, functional flooring solutions.

SignaSports Flooring Systems distributes and installs synthetic and hardwood sport surfaces for a variety of spaces such as weight rooms, locker rooms, aerobic rooms, gyms, common areas, interior courts and multi-purpose facilities, including wet surfaces designed for pool decks. Perfect for schools, churches, youth centers, fitness centers, training facilities and more.

MasterWorks

MasterWorks is a suite of programs and services designed to provide solutions and grow your business.

MasterWorks TRAINING

Driving end user expertise through comprehensive training.

MasterWorks FIELD SERVICES

Ensuring customer satisfaction through technical support and problem solving.

MasterWorks DESIGN + SPECIFICATION

Providing solutions through active work with design and specification teams.

FROM CONCEPT TO COMPLETION, WE'VE GOT YOU COVERED.

ICP Building Solutions Group offers a comprehensive range of building envelope products along with class-leading cementitious and sports surfacing systems. Built on the foundation of Innovations that Improve[®], ICP offers building solutions that set the standard in their markets and present unparalleled value to our customers.
