**MIROSLAV "MISHA" MLADENOVIC, PE  
PRESIDENT**

Mr. Mladenovic's career in construction spans for more than 30 years. Considering it his true calling, he was involved during that time in the most diverse projects, ranging from multi-purpose conference halls to luxury condominiums on three continents. A proven problem solver, he actively participated in all aspects of the construction process, from design to construction management and from equipment commissioning to forensic engineering. Licensed in several states and countries, Mr. Mladenovic speaks seven languages.

**DEJAN M. TEPAVAC, PH.D.  
PRINCIPAL**

Dr. Tepavac is responsible for M2E's cutting edge Technology Division as well as its infrastructure. The Technology Division specializes in developing custom business applications for smart phones and tablets, and consulting for complex building systems and robotic parking systems.

Dr. Tepavac has a unique combination of IT education and years of practical experience. He has managed various types of projects ranging from complex computer network systems to Artificial Intelligence. This experience allows him the ability to devise the right custom solutions for our diverse clientele.

M2E's current prosperity and future success are based on establishing and maintaining the high quality of our work and the nurturing of close relationships with our clients.

**Clients are the constant focus of our business.**

In understanding their particular needs, we are able to provide them with a tailored service for a fair price. Once we ascertain their requirements, our unique working environment that encourages mutual respect and support, open communication, as well as proactive thinking 'outside the box,' facilitates the accomplishment of their goals.

Our services evolve along with the changing needs of our clients and their businesses, and in doing so, we contribute towards our mutual success.

- Miroslav "Misha" Mladenovic, PE

**Engineering is problem solving, plain and simple.** It is a craft that demands a finely tuned skill set and decades of experience to hone to perfection. That is why at M2E we pride ourselves on our ability to save our clients time, money, and energy by providing the most efficient and direct solutions to fit their needs.

Our projects endure the test of time. The integrity of the building is a reflection of our own, which is why you can trust us to make sure everything goes exactly as planned. When our teams merge, we guarantee that nothing impedes your development. Because our presence is on the cutting edge of engineering, we make certain that your project sets the bar for what will become the future industry standard. **Over the years, we have built an uncompromising reputation for excellence.**

Our clients keep coming back because they know that when they work with us, they will sleep well at night. Our expert testimony in construction litigation cases has earned us praise for our objectiveness and ability to grasp critical issues both from an engineering & legal standpoint.

**This has made M2E an invaluable resource for some of the most respected law firms.**
