

Do you still need Door Lock Monitoring?

The Bureau of Elevator Safety has implemented the new ASME Elevator Safety Code A17.3-2015, specifically focusing on Safety Code for Existing Elevators. This includes Section 3.10, Operating Devices and Control Equipment, with Requirement 3.10.12 ensuring a System to Monitor and Prevent Automatic Operation of the Elevator with Faulty Door Contact Circuits.

We Can Fix That!

"They Always Get The Job Done!"

We're Serious About Customer Service.

Discover peace of mind with our comprehensive maintenance contracts and expert repair services.

We promise efficient solutions, reliable upkeep, and dedicated support to keep your operations running smoothly and your investments protected.
