About Us

Founded in 2004 and based in South Florida, Fibernow (formerly OpticalTel) is a leading fiber broadband provider serving communities across Florida offering fiber internet, streaming TV, managed Wi-Fi and digital phone services.

From your home to your business, we are dedicated to exceeding customer expectations with exceptional service and technology. Count on us to provide solutions that drive success in today's technology.

Fibernow is now part of the diverse and continuously growing DigitalBridge* portfolio, a global digital infrastructure firm investing across five key verticals: data centers, cell towers, fiber networks, small cells, and edge infrastructure and managing ~\$100 billion dollars in digital infrastructure around the world.
