## MOLD REMEDIATION

Hidden anywhere in your residence could be that toxic mold. Causing serious effects to the health of occupants. Rapid Recovery Team will provide you with a licensed industrial pre and post mold hygienist testing at no cost. Protect what matters the most from mold effects and call the specialists for a free mold assessment.

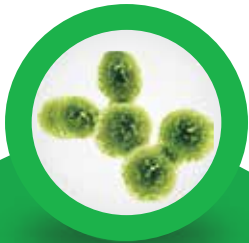

## FLOOD MITIGATION

Water damages are unexpected and stressful. The damages caused by water to a residential or commercial property may be undetected, or it may be instantaneous and severe such as a flooding. Rapid Recovery Team can respond and attend all your drying needs. Regardless the scale of damage, we are ready to work 24/7 to bring you to pre-existing damages.

## FIRE/SMOKE RESTORATION

Even a small fire can be very devastating and dangerous for the health of property occupants. Smoke comes from a whole host of materials such as burning wood, plastic, fabric and other construction materials creating toxic gases and complex odors that are unsafe to breathe. We are determined to restore your property as quickly as possible to pre-loss condition rapidly & efficiently.
