SPIRE

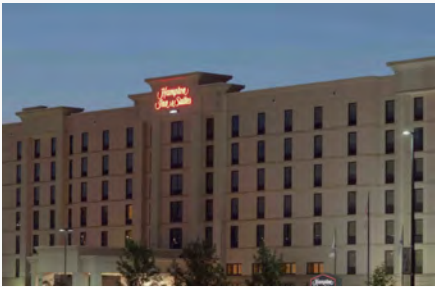

BUILDING SOLUTIONS

Innovation. Restoration. Transformation.

INNOVATION

Using the most advanced technology available to restore and maintain building properties.

Spire Building Solutions provides all levels of exterior building maintenance, repair, and restoration services for these markets. Our team's project management approach is adapted to the function of our client's operating facility to support our client's customer care experience.

Hotels and Resorts

At Spire, we collaborate with our clients on each project to ensure timely delivery while minimizing disruptions to building operations and mitigating any safety concerns.

Condominiums

Spire provides customized solutions designed to aesthetically enhance the property, increase property values, and prevent costly repairs.

Healthcare and Assisted Living

At Spire, we provide solutions to ensure the exterior façade and structural elements are well-maintained, while also coordinating with building management to minimize any inconveniences and implement all necessary safety protocols.

Commercial Buildings and Parking

Spire provides cost-effective strategic planning that emphasizes our clients' ROI. We do this by increasing the property's attractiveness while also preventing expensive repairs.

RESTORATION
