

ANOTHER CLOGGED DRAIN?!

Sick of choosing between a fast response time and a job done right?

We know the everyday stresses you face trying to keep tenants and building owners happy. Our knowledge of drains and sewers in multi story and industrial buildings is unmatched. Using our expertise, we'll help solve the problems (slow drains, clogs, problem sewers) that can take up the majority of your day.

Fast Emergency Service

With a name like ZOOM DRAIN, we have to be fast. We love our customers and we love drain work. So, our professionals respond quickly, show up promptly and tackle the sewer or drain issue you're facing at lightning speed.

Trained Specialists

With years of experience and our own in-house training center, you can be assured that we're not coming to learn on the job. Cleaning drains is our specialty and each of our technicians cleans thousands every year, more than the average plumber will clean in a lifetime!

Planned Maintenance Programs

We review the drain and plumbing emergencies you've had in the past, so that we can help prevent them in the future. Regular cleanings greatly reduce the likelihood of you losing profits due to drain emergencies. Whether it's high-pressure water jet cleaning of high-use drains, bacteria and enzyme treatments for grease build-up, or periodic inspections, we have the solutions. Monthly, quarterly and yearly Planned Maintenance (PM) programs are available to meet your commercial drain needs.

I called Zoom Drain Fort Lauderdale for a commercial property and they responded the same day and provided very thorough service. I highly recommend and will use their services again!
